Address: 2, Akinwale Street, Off Yaya Abatan, Ogba Lagos

Project Overview

This comprehensive website development proposal outlines our plan to create a modern, accessible, and functional website for St. Patrick's Catholic Church. The website will serve as a digital hub for parishioners and visitors, providing essential information, spiritual resources, and community engagement opportunities.

Client Information

Organization: St. Patrick's Catholic Church

Our Professional Fee: N300,000

Project Goals

1. Create a professional, visually appealing website that reflects the church's identity
2. Provide easy access to essential information such as mass times and contact details
3. Showcase the various ministries, organizations, and services offered by the church
4. Enable online giving and prayer request submissions
5. Deliver a fully responsive design that works across all devices
6. Implement accessibility features to serve all members of the congregation

Website Structure & Features

Home Page

- Welcome message and mission statement
- Featured announcements and upcoming events
- Quick links to mass times, giving, and prayer requests
- Inspirational imagery and scripture
- Latest sermons or reflections

Essential Information

- **Contact Information:** Complete church address, phone number, email, and map
- **Mass Times:** Comprehensive schedule of regular and special masses
- **About Us:** Church history, mission statement, and core values
- **Pastoral Team:** Photos and bios of the Parish Priest, Associate Priest, and other key leaders

Outstation/Organizations/Communities

- **Ministry Directory:** Detailed pages for each organization (CMO, CWO, MCA, CYON, etc.)
- **Community Groups:** Information on Bible studies, small groups, and other activities
- **Join a Ministry:** Forms to express interest in various ministries

Worship and Resources

- **Sermon Archive:** Audio/video recordings of past sermons with search functionality
- **Worship Schedule:** Detailed liturgical calendar

- **Prayer Requests:** Secure form for submitting prayer intentions
- **Adoration Hour:** Schedule and information on Eucharistic adoration
- **Spiritual Resources:** Links to Bible study tools and devotionals

Events and News

- **Interactive Calendar:** Comprehensive calendar showing all church events
- **News Section:** Blog-style updates on church activities
- **Social Media Integration:** Links to and feeds from church social media profiles
- **Newsletter:** Sign-up form and archive of past newsletters

Giving and Support

- **Online Donations:** Secure payment gateway for tithes and offerings
- **Ministry Support:** Information on specific projects needing financial support
- **Transparency:** Reports on how donations are used

Technical Specifications

Design Elements

- Mobile-first responsive design
- Church branding (colors, logo, typography)
- High-quality photography of the church building and community
- Intuitive navigation and user experience

Technical Features

- **Content Management System:** WordPress for easy updates by church staff

- **Security:** SSL certificate, regular backups, security plugins
- **SEO Optimization:** Meta descriptions, alt tags, and Google Search Console integration
- **Analytics:** Google Analytics to track website performance
- **Accessibility:** WCAG 2.1 AA compliance, including:
 - Screen reader compatibility
 - Font size adjustment
 - High contrast mode
 - Keyboard navigation

Project Timeline

1. Discovery Phase (1 week)

- Gather detailed requirements
- Content collection
- Brand assets review

2. Design Phase (1 week)

- Homepage mockup
- Interior page templates
- Design review and approval

3. Development Phase (2 weeks)

- WordPress setup and configuration
- Template development
- Content integration
- Functionality implementation

4. Testing Phase (1 week)

- Cross-browser testing
- Mobile responsiveness testing
- Accessibility testing
- Content review

5. Launch Phase (1 week)

- Final adjustments
- Domain and hosting setup
- Website launch
- Staff training

Total Timeline: 6 weeks

Professional Fee Breakdown

Item	Description	Cost (N)
Design	UI/UX design, mockups, templates	60,000
Development	WordPress implementation, custom features	80,000
Content	Content organization, migration	30,000
Training	Staff training on CMS use	20,000
Hosting & Domain	1-year hosting and domain registration	75,000

Item	Description	Cost (N)
SSL Certificate	Security for online transactions	15,000
Plugins	Premium WordPress plugins	20,000
Total		N300,000

Maintenance Plan

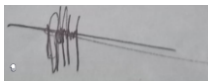

We recommend a maintenance plan to ensure the website remains secure, updated, and performing optimally:

- Monthly WordPress core and plugin updates
- Regular content updates
- Performance monitoring
- Security scans
- Backup management

A separate maintenance proposal can be provided upon request.
